Experienced Sales + Customer Service

The key...great customer service. We love the marine industry and one of our core missions is to help raise the customer service bar in this industry.

However, the internet has completely transformed the way we do business. While traditional sales principles still very much apply (such as building a solid relationship with the customer, earning their trust, adding value, customer qualification, etc), how you get there is now very different. It used to be that a customer valued a solid handshake and an honest smile. In a traditional face to face environment, skilled salespeople could qualify a customer based on body language, personality type, etc. In today's internet age, many buyer

SALE PENDING 2017 Scarab 255 Impulse
jet boat get there fast and have a blast!

An interesting offering from the legendary go-fast
boat manufacturer, the Scarab 255 Impulse is their
entry into the market for versatile family day boats
and boating.

This long and spacious jet-powered combination
bowrider, deck boat and ski boat has the features and
performance to allow one to do a little bit of
everything pretty well.

Starting from the stern forward, the giant swim
platform sits low to the water and has a four-step
stainless steel boarding ladder for easy entry and exit
for swimmers. Twin wet storage lockers are set into
the swim platform for stowage of dripping tow ropes
and ski vests, etc., to keep water out of the cockpit.

The transom seating features a pair of three-way

backrests that allow rear-facing spectator or filming seating or that lay flat to form a sunpad in addition to the forward facing configuration.

Forward of those two seats are a pair of rear-facing seats to port and starboard with filler sections that can connect them to the aforementioned transom seats, thus forming a set of loungers and/or a wrap-around cockpit settee.

Still forward at the helm is a pair of richly padded and bolstered bucket seats for pilot and co-pilot, the helm station itself clean and modern with large, easy to read analog instruments for the tachometers and speedometer... no need to fuss with menus and such just to get the most important and basic information.

Finally, up front, the wide beam gives plenty of passenger room, the gunwale height keeping folks a bit drier and any little ones from flying overboard.

Of course being a jet boat the draft is minimal, just a few inches over a foot, reducing the likelihood of new or inattentive boaters colliding with perfectly innocent submerged obstructions, and the engines have closed circuit cooling, meaning their internal block passages are NOT exposed to the corrosive effects of salt or raw water and should offer a long service life.

So, go speed around or just hang out for a day, board a crowd to watch fireworks, take an evening cruise to a dockside restaurant, pull a skier or two, go swimming... all in all, a boat that can do many different things for quite some time to come.

We are looking for people all over the country who share our love for boats. If you have a passion for our product and like the idea of working from home, please visit [WhereFreedomTakesYou \[dot\] com](http://WhereFreedomTakesYou.com) to learn more.

Please submit any and ALL offers - your offer may be accepted! Submit your offer today!
