Experienced Sales + Customer Service

The key...great customer service. We love the marine industry and one of our core missions is to help raise the customer service bar in this industry.

However, the internet has completely transformed the way we do business. While traditional sales principles still very much apply (such as building a solid relationship with the customer, earning their trust, adding value, customer qualification, etc), how you get there is now very different. It used to be that a customer valued a solid handshake and an honest smile. In a traditional face to face environment, skilled salespeople could qualify a customer based on body language, personality type, etc. In today's internet age, many buyer

Built: 2015

Description: Stock #329841 -

One-of-a-kind Baja Custom Center console, low engine hours, trailer included!

The 2015 BAJA OUTLAW CENTER CONSOLE is a high-performance fishing boat built on the Baja Outlaw hull design. This model is equipped with two Suzuki DF140A 140 outboard motors that provide excellent speed and maneuverability on the water.

One of the key features of this boat is its forward fuel tanks. This design improves weight distribution and handling, while also providing a more spacious and open cockpit. This feature allows for a comfortable and enjoyable experience for all passengers, whether they are fishing or just enjoying a day on the water.

Another notable feature of the 2015 BAJA OUTLAW CENTER CONSOLE is its under-deck fish storage. This feature is perfect for fishermen

who want to keep their catch fresh and secure while they continue to fish. The fish storage is located beneath the deck, keeping the fish out of sight and protected from the elements. This feature ensures that the catch stays in good condition until it's time to return to shore.

The boat's two Suzuki DF140A 140 outboard motors provide ample power to propel the boat through the water. These motors are designed to deliver exceptional speed, acceleration, and fuel efficiency. This design enables the boat to reach top speeds of over 50 miles per hour and easily navigate through rough waters.

The 2015 BAJA OUTLAW CENTER CONSOLE features a spacious cockpit with ample seating for passengers. The helm station is ergonomically designed and equipped with all the necessary gauges and controls for easy navigation.

The boat's T-top provides shade and shelter from the sun and elements, making it ideal for long days on the water. Additionally, the boat has ample storage compartments throughout, including a large in-floor storage area that can accommodate fishing gear, water toys, and other equipment.

The Baja Outlaw is a famous high-performance powerboat that has become a favorite among speed enthusiasts and offshore racers alike. The boat's design and capabilities are a testament to Baja's commitment to quality and innovation, and have made it one of the most sought-after models in the marine industry.

One of the most distinctive features of the Baja Outlaw hull is its deep-V design. This hull shape allows the boat to slice through choppy waters with ease, providing a smooth and stable ride even in rough conditions. The deep-V also helps to reduce the impact of waves on the boat, which can reduce the risk of damage and improve passenger comfort.

In addition to its deep-V design, the Baja Outlaw

also features a stepped hull. This means that the bottom of the boat is divided into two or more levels, with each level creating a step that helps to reduce drag and increase speed. The stepped hull also helps to improve fuel efficiency, as it reduces the amount of surface area that comes into contact with the water.

Another key feature of the Baja Outlaw is its construction. The boat is built using high-quality materials, including fiberglass and Kevlar, which provide excellent strength and durability. The use of these materials also helps to reduce the weight of the boat, which can improve its speed and handling

We are looking for people all over the country who share our love for boats. If you have a passion for our product and like the idea of working from home, please visit [WhereFreedomTakesYou \[dot\] com](http://WhereFreedomTakesYou.com) to learn more.
