Experienced Sales + Customer Service

The key...great customer service. We love the marine industry and one of our core missions is to help raise the customer service bar in this industry.

However, the internet has completely transformed the way we do business. While traditional sales principles still very much apply (such as building a solid relationship with the customer, earning their trust, adding value, customer qualification, etc), how you get there is now very different. It used to be that a customer valued a solid handshake and an honest smile. In a traditional face to face environment, skilled salespeople could qualify a customer based on body language, personality type, etc. In today's internet age, many buyer

Custom Built Novi Ready To Make Money Today!

This Bruce Atkinson built Novi is in the water and ready to fish today. Custom built for her current and only owner in 2001, this vessel has been the flagship of her seller's fleet for two decades. This versatile vessel has the ability to be easily converted to a longliner, scalloper, or lobster boat.

Designed and built with no cost spared, the power package on this Novi includes a heat exchanger cooled 400HP Caterpillar 3406 main attached to a Twin Disc 516 with a 4.5:1 reduction ratio, a 4 inch stainless steel shaft, and a 48 inch prop. Also, 3600 US gallons of fuel is divided between her 4 stainless steel tanks.

This vessel is well equipped with electronics. Her electronic package includes WindPlot, a Furuno FCV-292 sounder, Furuno radar, Northstar 951X and 952X GPS's, a Robertson AP-45 autopilot, an Icom IC M700, an Icom IC M602, and a Globalstar

sat phone.

The Hydraulic system features a 150 gallon main tank for her gear and a 60 gallon steering tank.

Up on her double laminated, double 3/4 inch deck, a 30 inch Crossley net lifter hauls the catch which can be placed into 4 - 8'x5'.5x4' holds, with the forward 2 holds being insulated. A 3000 PSI, 4.5 GPM power wash is also available on deck for wash downs.

The electrical system consists of a 24V DC main system and a Newmar converter that supplies the 12V components. The 110V AC system is run by an Isuzu 12.5kW generator and also contains a 4000W Trace inverter.

Inside the cabin there's a full head with shower and room in bunks for 6 crew. A Seward 20 gallon water heater takes care of any hot water needs. A well appointed galley is also available with plenty of storage for those longer trips.

You will notice from the photos that no cost was spared in the building of this boat.

We are looking for people all over the country who share our love for boats. If you have a passion for our product and like the idea of working from home, please visit [SellBoatsAndRVs \[dot\] com](http://SellBoatsAndRVs.com) to learn more.

Please submit any and ALL offers - your offer may be accepted! Submit your offer today!

Reason for selling is retiring.

At Pop Yachts, we will always provide you with a TRUE representation of every vessel we market. We encourage all buyers to schedule a survey for an independent analysis. Any offer to purchase is ALWAYS subject to satisfactory survey results.
